

THE WIRE

SPRING NEWSLETTER • 2022

MARK YOUR CALENDARS!

Each year CWEP has the opportunity to celebrate Drinking Water Week (May 1st - 7th). This is an important week set aside to help bring awareness to our Carthage community of the benefits of tap water, and that a safe, reliable water supply is critical to the success of any community. To honor this week, we'll be celebrating once again with our annual

Tower 2 Tower Run on Saturday, April 30th!

All proceeds from the run will be donated to **Water For People**, an organization that exists to promote the development of high-quality drinking water and sanitation services, accessible to all.

The run course will begin at the South CWEP Water Tower on George Phelps Blvd. and takes runners down past the historic Main St. Water Tower then back around to a fun finish at the South Tower.

Participating in this run is not only a great way to get involved with your Carthage community but also a great way to help provide clean water and sanitation services to those in need all over the world. We appreciate your help in achieving this goal and can't wait to race you to the finish line!

"WATER GIVES DREAMS"

When water arrived at Binaga School in the remote countryside of Rwanda, it gave students the future. It provided the foundation for them to dream.

The school sits in a peaceful valley, surrounded by lush green hills. Students in their crisp yellow uniforms laugh as they meander through freshly painted corridors on their way to class. This time of year, students are concentrating hard in their classrooms, taking their exams. During breaks, they cultivate the school vegetable garden or find the closest water station to get a cool drink.

Before water came to the village, this scene looked very different. The school and surrounding communities didn't have safe drinking water or proper bathrooms. Many of the school's 1,000 students missed class regularly to fetch water several miles from their homes, or because they were sick from drinking dirty water. Without decent sanitation facilities, menstrual hygiene resources for girls, or hand washing stations, students couldn't

practice proper hygiene. Many girls stayed home from school when they had their periods.

Water is changing all of this. Water gives health, time, and education. It gives students hope and joy. It gives them a chance to reach their full potential.

Now, children like Josephine, who plans to be a journalist, and Eugene, who wants to be a mechanic, can dream for the future. Water is the foundation for tomorrow's teachers, tailors, and pilots. You can see the joy on students' faces when they realize they can accomplish their goals.

INVESTING IN THE FUTURE OF CARTHAGE

CTC 2022 CAREER FAIR

On Friday, February 18th, CWEP had the privilege of taking part in the Carthage Tech Center Career Fair at the new Tiger Activity Center. Over 800 students, juniors and seniors from Carthage, Webb City, and Carl Junction, attended 4 morning sessions where they toured a room full of local businesses and schooling opportunities for the future. CWEP enjoys any opportunity like this that helps shape the future of Carthage in such a positive way.

ELECTRICAL SAFETY DAY AT THE CIC

On Thursday 3/3 & Friday 3/4, CWEP participated in our annual Electrical Safety Day demonstration with the 5th grade students at the Carthage Intermediate Center. This is a great opportunity every year for our linemen to discuss what they do on a daily basis as well as perform a thorough safety demonstration for the kids. During this time, they discuss all of the important aspects of electrical safety and ways that kids can start conserving water and electricity at home. These lessons prove to be important for the kids take with them into the future and help improve our community on a daily basis.

WATER QUALITY REPORT

CWEP water is treated & tested 24/7, to ensure that only the **BEST WATER** is delivered to our Carthage community! View our 2021 Water Quality Report to learn more about **YOUR LOCAL WATER SOURCE!** >>>
